SANTA ANA, CALIFORNIA, APRIL 13, 1932

NUMBER TWENTY-SEVEN

STUDENT LOAN FUND DANCE TO BE HELD IN GYMNASIUM; FRIDAY AT FOUR O'CLOCK

Las Gitanas Club With Help Of Other Clubs To Sponsor The Function

Piece Band Furnishes Popular Jazz Music For The Affair

The tea dansant, which is being sponsored by the Las Gitanas service to raise money for the student fund, will be held Friday afternoon, April 15 from 4:00 to 5:30 in the big gymnasium.

Last semester the Las Gitanas held a bridge benefit in the home of Mr. Spurgeon for the purpose of raising money for the student fund.

Las Gitanas members are being assisted by the Sisterhood of Spinners, who have charge of making the announcements, and by the Las Menis, who are responsible for the tea. Virginia Anthony is general chairman of the affair, and Florence Cokley chairman of the decoration committee.

A good six piece orchestra has been engaged to play for the dancing. The price is only 25 cents.

Tickets may be gotten from any member of the Spinners or Las Gitanas and are being sold today and tomorrow in the hall. Tickets will also be sold at the door.

PHIL. CLUB MEET

Lewis Bates reviewed the book, "What I Believe" by Dean Inge at the regular meeting of the Philosophy Club last Saturday night in the home of Mr. Nealley.

As there was a small number present, quite a good group discussion was possible, everyone taking a part in it.

Next Saturday night the book, "As Jew Sees Jesus" by Rabbi Tractner will be discussed by Jack Green, president of the club. The book, it is reported, is an eye opener to some of the sleeping Christians, giving a hint of view to which many of them will have to come eventually.

The book deals with the historic work of Jews. Any student interested in the Philosophy of life is especially invited to attend these interested discussions.

Engineers Invite Hi Studes To Meet

Plans for the largest J. C. Engineers club meeting of the year, to be held May 20, were made at the J. C. Engineer's meeting.

Every qualified high school senior will be invited to the meeting and the club will furnish to them several interesting experiments, as well as prominent speaker.

The rest of the meeting was devoted to the discussion of the manufacture of cane sugar from the viewpoint of an Engineer, and to the planning of an exhibit for Fiesta day.

Two Don Alumni Make Glee Club Trip

Crawford Nalle and Jack Rimel, former students of the Santa Ana junior college, have brought additional honor to the college alumni by their participation in the annual glee club contest of United States colleges held in St. Louis, Mo. last week.

The Pomona club of which both the former Dons are members were named national champions at the eastern event, nosing out Harvard University for first place. Both the former Dons were active in glee club work here. Crawford, who is a senior at Pomona, served as the doctor for the club on its tour east.

The trip to St. Louis was made possible through the financial backing of the University of Redlands, which several members of the Don alumni are now attending.

Speaking Tryouts Postponed Until Monday

Because of the change in schedule by ditch day, tryouts for the extemporaneous speaking contest are postponed until next Monday. Finals for the event are scheduled on April 15.

All members of the classes in public speaking, Lewis Bates and Morris Singer are contestants. Anyone interested in the contest should see Sheldon M. Hayden, head of the public speaking department, for particulars.

Ten dollars in prizes will be awarded winners in the finals, it was stated. This oratorical event is being held to stimulate interest in forensics. The money is to come from the miscellany fund of the Associated Students.

Dr. Of Humanities To Speak On "Life"

Edward Howard Griggs, one of the most popular and forcible lecturers on the American platform, author, and scholar will speak in assembly tomorrow, it is reported. At present he is president of the Department of Philosophy of the Brooklyn Institute of Arts and Sciences.

Although Dr. Griggs has not yet announced his subject "Life" has always been his theme. He has been eminently a teacher, not a dreamer. "His words hit hard, and the poise and clarity of the man bring conviction. He makes you think and you like it," critics declare. The professor is one of the few men in the United States to bear the title L. H. D. "Doctor of Humanities".

For years Dr. Griggs has been teaching more people than anyone else. He has travelled 1,55,055 miles, lectured 7,641 times to 4,403,045 listeners. From his early years of learning he has been in a position to observe and come in close contact with actual humanity. Professor Griggs has stood long upon the mountain top, watching and understanding life in all its processes, reflecting earnestly upon his vision and then creating out of himself a message that is clear, wise, largely original and inspiring," stated a well known educator.

The speaker has 17 lecture courses to his record and 11 books. He has prepared and published handbooks for all but four of his courses. His books include "For What Do We Live," "Friendship, Love and Marriage," "The Soul of Democracy," and "The Philosophy of Art."

Miss Paul Speaks At Breakfast Club Sun.

Accepting a special invitation of Miss Linda Paul, at whose home meetings were formerly held, the Breakfast club will meet and breakfast with her again next Sunday morning.

It was due to the efforts of Miss Paul, Dean Fisk, and George Warner that the Breakfast club was first organized, and until this semester the meetings have all been held at Miss Paul's home on North Main Street. However, this semester other duties and obligations forced her to give her time to other activities, and the First Methodist church is now used by that organization.

Fosdick's book "The Manhood of Master" is again being used as a text by the club at their Sunday morning meetings lead by Dean Fisk. Aside from the book, discussions on modern day personal, national, and international questions are held, with Russell Koons, president, presiding.

Bachelors Slate Beach Party; Breakfasters To Meet At Paul's

Plans were being discussed today by the members of the Brotherhood of Bachelors for the Annual Bachelor's Beach Party, which will take place within the next two or three weeks, under the chairmanship of Bill Campbell. Last year the event took place at Laguna Beach, with swimming, eats, and dancing afterwards, and it is highly probable that that beach will again be the scene of the gathering of the Bachelors and their lady friends. Assisting Campbell on the committee are Lawrence Rosier, and Gene Hall.

It was also announced that the Bachelor parking lot would be definitely ready for use during the last of the week. A temporary delay has occurred due to the breakage of machinery used in clearing and lining the lot.

Fiesta Play Cast Starts Intensive Practice Monday

Since last Monday the cast of "Ladies of the Jury" has been in intensive rehearsal, in preparation for Fiesta day, according to Ernest C. Phillips, dramatic instructor.

With the selection of Jimmie Hathcock to play the real estate salesman and Dante Siracusa, Tony the Greek, the cast was complete last week except for an officer. The list of players is as follows: Louise Leck, Bonnie Kiser, Beth Collar, Martha Hendricks, May Maag, Katherine Hawes, Douglas McAdams, Cecil Slaback, Dante Siracusa, Jimmie Hathcock, Althea Lambke, Pauline Duckett, Ione De Remer, Bob deupree, Jimmie Thompson, Glover Hendrickson, and Mitchell Hookins.

Cast Of Operetta Practice Regular

Regular practice is well under way for the "Prince of Pilsen", this year's operetta to be presented on Friday evening, May 6, by the Men and Women Combined Chorus of the Santa Ana high school and junior college.

The cast for the play which is being directed by Miss Myrtle A. Martin are as follows:

Prince of Pilsen—Mark Hare
Hans Wagner—Martin Bowman
Tom Wagner—Martin Bowman
Artie—Simeon Toelle
Francis—William McCormack
Mrs. Madison Crocker—Martha Wardlow
Sidonie—Agness McKinstry
Edith—Jean Baldwin
Nellie—Verna Helm
Jimmie—James Quigle
Practice is held every night throughout the week for the cast, and the chorus's practice twice a week with the cast.

Languages Is Topic Of Aurelia Koch In Speech Last Mon.

Miss Aurelia Koch spoke on the topic "The Family Tree" last Monday evening, April 11 at 7:30 in the Board of Education offices.

Her speech concerned the genesis of the English language and a discussion of other European tongues. It was given especially for those interested in the department of English, although Miss Lella B. Watson also announced it to her foreign language classes.

Not only teachers and students of Santa Ana were invited, but the adult education department sent notices to all English teachers of this general district.

Miss Koch is at the present time a teacher of German in the Santa Ana night school.

Certificates Ready For Phi Theta Kappa

Phi Theta Kappa members who have not yet received their certificates from Miss Lella B. Watson's office are reminded that they are still there. It has been asked that they call for them as soon as possible, as they have been here several weeks.

chinery used in clearing and lining the lot.

Action was also progressing for the Fiesta Day plans which come under the supervision of the Bachelors. Harry Clayton is in charge of the construction necessary. Bill Campbell of the sale of tickets to the Fiesta Day play, "Ladies of the Jury," and Duncan Harnois of the program for the afternoon and evening.

At the last meeting several members of the student body of the University of California at Los Angeles were visitors to study the junior college clubs, and an invitation has been extended to the Bachelors to visit the clubs on the campus of that institution.

Open House Days At Caltech Will Be This Week-end

Thousands of visitors are expected to attend the annual open house days, next Friday and Saturday at the California Institute of Technology. Everyone is invited, especially those who are intending to become scientists and engineers, to witness activities and progress of the university.

More conveniences are offered those attending Friday and Saturday afternoons as there always is a congestion Friday evening. Visiting hours are from 1:00 to 10:30 p. b. Friday from 9:00 a. m. to 3 p. m.

Among the highlights of the exhibit will be the electrical demonstrations. 1,000,000 volts are to be used with amazing corona effects, insulation breakdown, and giant horn gaps.

In the physics department cosmic ray apparatus and that of the Nobel prize-winning oil drop experiment for measuring the charge on the electron will be on display. The gigantic wind tunnel will be a feature in the Guggenheim Graduate School of Aeronautics.

Tea is to be served Friday afternoon in the garden of the Hall of Humanities. Here many old books and manuscripts are in the treasure room.

Other buildings that will be visited are those containing biology department and the Kellogg Radiation Laboratory.

J. C. Will Now Give 2 Radio Programs

Santa Ana junior college will present two programs over KREG each week starting Thursday, April 21.

Bob Edwards, of the advertising class, will be in charge of the Thursday program, which will feature music from the forthcoming operetta "Prince of Pilsen" to be offered May 6-7.

This week's Friday program will present Wilton Hilliard as speaker on "Athletics in Junior College". Lella Slaback will also give several accordion solos.

La Voile du Bonheur Declared A Success

"The French club play a most unusual success and one of the outstanding performances of the year," was the report of Mrs. Burr Shafer, a member of the Community players and chairman of last month's meeting. Special mention was given by her to Earl Fraser, who carried the leading masculine role.

"La Voile du Bonheur" is a play by George Clemenceau, famed as a writer and a statesman. Preceding the performance Miss Lella B. Watson, who, together with Mrs. Shafer, directed the play, gave a brief talk concerning the playwright.

French students who took part in the play besides Earl Fraser were Harry Motley, Bob Brown, Charles Stehly, Joy McPhee, Yasuko Endo, Kiyoko Saiki, Duncan Harnois, and Faris Edgar.

Refreshments of the evening carried out the motif of the French program, hors d'oeuvres and cafe au lait being the menu planned by the committee of the community players.

EXTENSIVE PLANS ARE UNDER WAY TO INSURE "GREATER FIESTA DAY"

Phil Townsend Hanna And Father St. John O'Sullivan Expected Here

Beard Contest Support Grows: Competition In Event Waxes Hot

Warm spring days served to bring out the annual crop of social growth on the campus again this year on the faces of contestants competing in the annual beard growing contest sponsored by the O. K. club.

The original number of students entering the competition has been swelled as the approaching Fiesta period nears and more of the barbarous looking Dons are expected to blossom with whiskers before the close of the week.

Following the annual custom of awarding prizes cooperation of Santa Ana business men has been offered and definite premiums for winners in the event are to be announced in the near future, it was reported by the (Continued On Page Four)

J. C. Students Are Invited To U. S. C.

Santa Ana junior college students interested in further college work are invited to a "Faculty Consultation Day" or "Admission Day" to be held on the University of Southern California campus on April 16.

The program for the day is as follows:
The program for the day is as follows:

9:00 A. M.—Registration. Bovard Administration Building.

9:30 A. M.—reception of guests by the president, deans and directors, faculties, and Associated Student Body officials in the President Suite, Bovard building.

10:15A. M.—Group conferences.

11:15A. M.—Individual conferences of students with members of the faculty in department offices.

12:30P. M.—Complimentary luncheon, Student Union Building.

All students interested in attending may secure invitation and reservation cards from the Dean's office.

Tatlers Elect Five Fembers At Meeting

Five new members were elected to Tavern Tatlers at their last meeting, held in the J. C. library Tuesday, April 5, 1932. Besides the election, Miss Dulcie Green reviewed "The Good Earth" by Pearl S. Buck. The story concerned the conditions in China at the present time, dealing with the peasant classes and the famines.

Members who were present at the meeting were the Misses Agness Todd Miller, Miriam Samuelson, Dulcie Green, Goldie Peale, Jane Cunningham, Celestia Straub, Caroline Houghton, Alice Myers, Elva Cook, Betty James, Gertrude Jentges and Jack Green, Jack Bergen, and Wilton Hilliard.

Prexy Club Slated To Meet Thursday In "Y" Hut, Siracusa

Slated for next Thursday evening in the "Y" Hut, the presidents club will meet for the second time this semester, according to Dante Siracusa, president of the Associated Students. The announcement was made at the Executive Board meeting held last Monday.

Arrangements have been made to present a speaker, who will give a talk on junior college problems, it is said.

Big Day Of Entertainment Planned; H. A. Scott Is Faculty Adviser

Extensive plans to make the 1932 Spanish Fiesta on Friday, May 13, the biggest and most characteristic tradition in Santa Ana junior college were in full swing today, according to George Griffith, chairman of the annual affair.

Many prominent persons have been invited to attend, and such personages as Phil Townsend Hanna, editor of the "Touring Topics" magazine, and Father John O'Sullivan of the San Juan Capistrano Mission are expected to attend.

Griffith, with Mr. H. A. Scott, faculty adviser for the affair, have planned a full day of entertainment. Students heading committees to make the day a successful one are: Glen Smith, departmental exhibits; Elizabeth Palmer, dance chairman; Saragrace Frampton, decoration chairman; Duncan Harnois, chairman of the program; Harry Clayton, construction chairman, Bob Brown and Elizabeth Riniker, reception committee chairmen; Bob McFarland, historical exhibit chairman; Don Smith, chairman of the entertainment; Althea Lemke, supper chairman; Bill Campbell, chairman of the ticket committee; Catherine Harwood, luncheon chairman; and Roy Wood. The program is scheduled to commence at 10 a. m. with the crowning of the Don and Dona and includes Spanish dances, (Continued On Page Four)

MOAVS PLAN FOR DANCE APRIL 23

Plans were formulated by the Moav members at a meeting in the home of Miss Hazel Elton last week for a formal dinner dance to be held at the Mission Inn, Riverside, on Saturday, April 23.

After the business meeting, a social time was enjoyed by the playing of "Teakettle", and then the hostess, Miss Hazel Elton, and her co-hostess, Miss Joanna Day, served refreshments of strawberry shortcake to the following club members: Edith Bailey, Helen Campbell, Jane Cunningham, Eleanor Wisner, Dulcie Green, Gertrude Jentges, Ernestine Wakeham, Helen Wiesseman, Katherine Chapman, Mildred Spicer, and Virginia Anderson.

Pirates Lay Plans For Dinner, Dance In Hotel Virginia

Tentative plans for a dinner dance to be held at the Hotel Virginia, Long Beach, May 20, were discussed at the meeting of the Buccaneers last week. The dance will include the Buccaneers and their guests only.

Further and complete arrangements will be made in the near future, it was announced.

Hi-Jinks Scheduled By A. W. S. April 22

Hi-Jinks again will have intruded himself with his bag of tricks Friday night, April 22, when the Associated Women Students hold their annual frolic here in the auditorium and Andrew's gymnasium. Everyone must disguise as a kiddy to enter the portals of the "King of Fun".

The various organizations on the campus will open the program with an entertainment in the auditorium. A box social will follow with every freshly furnishing a lunch for herself and one sophomore.

Nev McDonald, president of the A. W. S. has appointed committees for the social. Members are as follows: Decorations, Bernice Keller, Shirley Thurman, Lucile Watson, Ruth Collins, Lorna Allen, and Betty Hawk; advertising, Virginia Warner, and Evelyn Green.

EL DON

"With one aim—to serve student and college."
The official publication of the Associated Students of Santa Ana Junior College, published weekly by that body, and issued on the Junior College consolidation ticket, the price of which includes \$1.00 for subscription to the paper.

Entered as second class matter in the Postoffice at Santa Ana, California, September 25, 1925, under the act of March 3, 1872.

EDITORIAL COMMENT

Defeat

Defeat isn't much fine, is it? It sort of knocks a fellow off his pedestal, and that is never any fun (unless it's the other fellow who gets trimmed down). But it doesn't mean that you are out of it. Far from it. In fact, you are "in it" even more than the winner is, for you still have rungs on the ladder above you, while he is perched precariously on the top with no place to fall but down.

Another thing. Whenever you lose you know there is somebody who can play the game better than you can. It affords you an excellent opportunity to learn. The fellow who sits on top has neither a teacher nor the incentive to learn.

Defeat tends to make you under-estimate yourself in the same way that victory leads you to over-rate your abilities. Thus, when the truth finds you out (as your sins, the truth, and your professors always will) you are due for a surprise. After defeat it will be a pleasant one, but in the other case it will not.

Victory creates the delusion that all is well and weaknesses show up as strengths. The defeat picture, however, is duo-toned with good and bad elements contrasted in bold relief.

To the great soul, defeat is a priceless teacher, a mighty tonic and stimulus spurring him on to re-doubled effort. It carries its own marching orders and map of the trail ahead.

Make every defeat a victory and every victory a step forward. (Then come back sometime and tell me how it works.)
—The Ink Well—"Campus Times,"—La Verne College.

What Is Your Goal?

Do you know the road—the highway of career—that you are traversing? Do you know the difficult hills of despondence—the stumbling blocks—which you must encounter on your journey? If not, it is high time you were finding out.

What higher institution do you expect to enter? Do you know its requirements?

Have you a definite aim in life? Have you a clear perception and plan of your future? If not, it is about time you realize the importance of an early decision. You may be wasting a great deal of your valuable time if you are groping along in darkness.

You may be energetic and ambitious, but it is as important to have that energy and ambition directed rightly as it is to have a loaded gun pointed in the right direction. Once you have a clear view of your mental target—then shoot and shoot hard. Let us form our future habits now, and make a success out of life while we have such a great opportunity.—C. T.

Inter Service Club Council

It has been suggested that an inter service club council be formed for the purpose of working out campus problems. Such an idea is a good one, if carried through, we believe. By carried through, we mean beyond the conference stage.

Whether or not the fact is very well known, there is on this campus a presidents club, which was designed to meet this condition. Whether or not this end is being approached still remains in doubt, as the idea is still, more or less, a new one.

We, personally, believe that the sponsors of the inter service club council are probing about, blindly perhaps, for a prod to goad them into action of some kind. This assertion is made after listening to a lot of ideas, swell ideas in theory, on improving conditions about the campus, which failed to go beyond the "Conference" stage. Now mind, we're not knocking the service clubs. Some of them have done some of their jobs.

But, BOY, DO THEY LOVE THEIR CONFERENCES!

A little more perspiration, we believe, after an evening of mulling over ideas at the presidents club, at which not only service clubs, but every club on the campus is represented, with a corresponding larger variety of ideas, would result in more campus improvement.

EDITORIALS FEATURES JOKES

OVER THE EDITOR'S DESK

BY GLOVER HENDRICKSON

I SEE BY THE PAPER (Register, 25 years ago today) where New Jersey was to impose a heavy tax on men who wear whiskers. Which is one more good reason for being thankful of living in this day and age, especially on this campus. Whiskers are valued here at this season of the year. Which further reminds me. Following the usual custom of El Don, a chicken list will be published for all those who succumb to the razor before May 13, Fiesta day.

JAC CRAWFORD ASKED me to say a few words, particularly in regard to the reason why he charged a quarter to those who failed to bring their student body tickets to the Jaleo last Saturday night. More than anything else, probably, is the desire to impress on the minds of said ticket owners that the associated student body ticket does possess a real monetary value at times. It would be a good idea to carry them at all times.

GOT A LETTER FROM BILL Friend, erstwhile student of this junior college. He says, particularly, to say "hello to all the girls he knows here and of course the Brotherhood. Personally, I don't know that I know all of the girls that he knows, so I'll just make it a general statement through this column. His address is Box 36, Quinter, Kansas, and don't be afraid to write.

DULCIE GREEN TELLS me that the picture proofs for Del Ano are not being turned in, as they should be. Students who have their proofs out yet should turn them into Bernard Sharpley or Dulcie Green. The deadline is approaching rapidly and the editors need all of the cooperation that they can get. This applies also to club writeups. They should be handed in immediately, so that the work on Del Ano will not be held up.

OUR FLAG'S BEGINNING

Just why the American flag has alternating red and white stripes is undetermined. Of course its significance is understood but not the origin. Some writers advance the theory that they were carried over from the Dutch flag, which had flown over New Netherlands from 1609 to 1664. Others point out that the British East India Co. suggested the design. It is also said that Benjamin Franklin advocated the 13 stripes.

Throughout the revolution many different colonial and regimental flags were used, in which red and white stripes, stars, and the blue field appear in various combinations. Contemporary prints show the stripes but no stars until the year 1780. It appears, therefore that the element which entered into the final design of the national flag were already in common use in the colonies.

Various arrangements of the stars were used until 1896 when Secretary of War, Daniel Lamont, ordered that they should be placed in six rows. The inspiring name of "Old Glory" was given to the American flag by Captain William Drives of Salem, Mass. in 1831. The words were his salute to a beautiful new flag presented to his ship starting on a voyage around the world.

The following flags are famous, and they are interesting either for their relation to the development of the present national flag or for their connection with events in United States history.

"Bunker Hill Flags" were recognized in New England as early as 1737. "The Flag of Lexington and Concord" was maroon colored and appeared in the fight from which it was named. "Rattlesnake Flags", used by Culpepper Minute Men, were popular with the American colonists just before the revolution. "Crescent Flags" appeared during the revolution.

"Pine Tree Flags", "Flag of Philadelphia Light Horse", and "The Continental Flag" preceded the "Betsy Ross" which was first to combine the stars and stripes. "The Bennington homme Richard", "Commodore Perry Flag", "Eutaw Flag", "Flag of Bon-Henry" conclude the list. This latter with 15 stripes and 15 stars inspired the writing of the "Star Spangled Banner" was authorized by Congress in 1794.

HEAVENS MAUDIE!

Hurrying across the street from Jaycee last week I suddenly realized that I was being followed, and my spine did all its favorite gymnastics when an enormous police dog came ambling along beside me. Now, I admire dogs when they are on the other side of the fence, but I never feel quite at home in the company of any except the stuffed, woolly kind found in the nursery.

As this big fellow saw that I was unattached, he evidently made up his mind to see me home. He trotted beside me, ran ahead to inspect a garbage can, and then bounded back to me, making my heart do a double flip flop. While he was busy lapping water at a running hose I slipped across the street hoping to lose my new admirer—but no such luck. By the time I was half way across he had covered the distance and stood grinning and waiting for me with an "I beat you, didn't I?" expression on his countenance.

Even this couldn't break through my reserve. I didn't speak to him or appear to see his efforts at friendship. At the corner I crossed the street, but so did my friend.

Just then a grayhound came dashing out for an argument and I fully expected to have to referee a few rounds—and there was not a tree within reach. While they were heatedly discussing their differences I made for a porch, where two ladies were discussing the merits of a bunch of sweet peas, hoping to lose my identity among flower pots and rocking chairs.

The dogs evidently settled their troubles out of court, and my escort came trotting across the lawn and onto the porch as if he had known my intentions from the first. My hostess suggested that if I would wait a few minutes he would forget about me and move on. Being very well satisfied with his company, however, he proceeded to take a nap, but with one eye open as I soon found out when I slipped down the steps to get away.

A little farther on I screwed up my courage enough to say in rather unsteady tones, "Go along with you." The dog looked up at me in pleased surprise at hearing my voice for the first time, and with a "never you mind, lady, I'll take care of you" expression, came closer to me.

Seeing that he didn't mean to throttle me, I looked straight at him and in my harshest tone said, "Get out of here."

At this the startled dog drooped both fore and aft and slunk down the alley. Just once he turned his head with a look of chagrin that his attempt at a flirtation had fallen so flat. "Another case of picking the wrong girl," he mused.

FELLOWS IN THE SPRING

To cut a class is not so hard
For fellows in the spring.
Excuses turn up everywhere
For doing just that thing.

There's work, and trips, and girls and swims,
And lessons piled in lumps.
But some, we're told, who're cutting now
Are hiding out with mumps.

Now, mumps are not a classy ill
They're commonplace and plain.
They puff huge knots beneath the ears,
Then poke them in again.

The victim looks a Bolshevik
With beard of ten days' growth;
He burns with fever, shakes with cold,
And often he does both.

To eat a pickle makes him shed
Great tears—not of remorse,
And friends tell jokes to make him laugh.
What kindness could be worse?

Don't razz your mumpy pal too much
Class-cutting is not past,
And though you chuckled loud at first,
You may not chuckle last.

Astronomer: "Orion was beautiful last night."
His Wife: "And what did she have on?"

A party at the Zoological Gardens stood puzzled before a bird.
"It's a heagle," said one.
"It's not," said another, "it's a howl."

They appealed to a bystander.
"Both wrong," he said, "it's an 'awk."

SMELLING APPARATUS

What is a nose? A very small dictionary might answer by defining it as the organ of smell. But this is all too significant. One is not acquainted with the fact that the nose is the olfactory organ, a very important and prominent feature on anyone's face. In fact it is a most essential element which might be termed an absolute necessity. No matter what its shape or appearance it is a treasured possession.

This dissertation is to deal only with human noses, for, after all, the protruding facial part of the lower animals is not termed the nose but the snout. It is only too true that very little attention has been given the proboscis. History is overflowing with poetic remarks about hair golden as the sun, of pearly teeth, of sparkling eyes and ruby red lips. But never has there been an ode written to a nose. What an infamous neglect! Poetic possibilities are equally as great for one's nose as for one's eyes. Unquestionably it is beautiful (There are pink noses, red noses, and even purple noses). It is an illuminating cape, or rather peninsula, under a lofty brow; preceding its owner wherever he goes, preparing a pathway, as it were. Thus it serves a useful as well as an ornamental purpose; still poets hesitate to eulogize it. The nose is also a definite moulder of personality. From delicately bridged noses down to the monstrosity of Cyranos it is a portrayal of character. A snub nose is a sign of pertness; a straight nose evinces haughtiness; a big nose tells of an affable, kind, courteous, witty, liberal and courageous person. And so on indefinitely.

Considering its value and beauty the nose is sadly neglected. For example, when it snores it is mocked. This ridicule is a depreciation of a sonorous trumpet that stands alone unequalled. No compensation does it receive except to be broken. Someone is always breaking his nose, although it surely has never deserved it.

At their last meeting, members of the Agorian club formulated plans to take one day from school within the next three weeks to visit the large commercial plants in the southland.

Tan mermaids may again be seen gliding up and down the junior college pool on Tuesdays and Thursdays in an effort to become fit to participate in the school meets.

Coach Bill Cook's Don tracksters closed their 1931 dual meet season last Friday with a 71-60 victory over Fullerton. The local athletes turned in several fine marks which insured Santa Ana a victory.

A POEM FOR THE EDITOR

As I was walking through the hall
One April afternoon,
I saw the editor stumble and fall
As he whistled a merry tune.

And as he fell he called to me,
A I was passing by,
And he said as he knocked a gob of mud
Out of his one good eye.

"Say you know me and I know you,
And it's hard for me to speak,
But are you or aren't you going to write
A poem for us this week?"

And I answered back as best I could
As I heaved a weary sigh,
"Why, sure I am." And here it is.
I hope that it gets by.
—Exchange

TRUTH IN POETRY
Girls who retire at half-past ten
Are loved by their parents and elderly men.

Men who boast
That they know wimmen
Often get
The biggest trimmin'.

My head out of the covers and
The windows opened wide,
I feel just like the lettuce of
A sandwich, left outside.

JOKES

Young Artist: "You are the first of my many models I have ever kissed."

Beth Collar (as the model): "How many have you had?"
Young Artist: "Four. An apple, a banana, a bouquet, and you."

Freddy: "What is an iceberg, daddy?"
Daddy: "Why it's a kind of a permanent wave, son."

Neva McDonald: "Is it true that Katie has a secret sorrow?"
Lorna Allen: "Yes, hasn't she told you about it?"

Gladys Lloyd (on her first visit to the Western farm): "For what purpose do you use that coil of line on your saddle?"

Cowpuncher: "That line, as you call it young lady, we use to catch cattle and horses."

Gladys Lloyd: "O, indeed; Now, may I ask, what do you use for bait?"

Tuning In

By Katherine Mateer
ON NEWS OF THE PAST

Again appearing in public, the Santa Ana junior college quartette, composed of Bill Fox, bass; Siemon Toelle, baritone; James Lukens, second tenor; and Charles Crumrine, first tenor will sing at the Kiwanis club luncheon at Ketter's cafe next Wednesday noon. Allan Revill will accompany on the piano.

El Don staff will edit and publish the Santa Ana Register, Journalism Day of Boys' Week. Other days of the week, April 21 to March 2 will be devoted to different activities of boys.

All accounting, secretarial and business retail courses of the Santa Ana junior college are now recognized by the University of Southern California, T. W. Woodbridge and B. R. Hayes, heads of the two departments at the university made known last night following a day's survey of the commercial courses and classes.

Eight teachers and students of Santa Ana junior college plan to visit the Westwood campus of the University of California at Los Angeles Saturday afternoon to attend the German play, "Jerusalem", given by the U. C. L. A. students.

Proceeds from a "Pop" concert to be given on the front lawn by the entire music department of the high school and jaycee on May 22, will be turned over to the office for the Student Loan Fund.

One of the most prominent features of the Fiesta day program will be the battery of Fox Movietone cameramen that will be sent from Los Angeles to film the festivities of the Spanish celebration. The organization of Woman Haters are responsible for this part of the performance.

At their last meeting, members of the Agorian club formulated plans to take one day from school within the next three weeks to visit the large commercial plants in the southland.

Tan mermaids may again be seen gliding up and down the junior college pool on Tuesdays and Thursdays in an effort to become fit to participate in the school meets.

Coach Bill Cook's Don tracksters closed their 1931 dual meet season last Friday with a 71-60 victory over Fullerton. The local athletes turned in several fine marks which insured Santa Ana a victory.

Installation of new officers who will be elected next Friday and a fashion show of eight models displaying types from bathing suits and pajamas to the most elaborate formal gowns furnished by the Sorority Shop are on the program for the Associated Women Students assembly next Tuesday.

EXPRESSIVE MOVEMENTS

Where do expressive movements come from? They come from movements that used to be necessary in order to be understood.

Shaking the head to indicate negation originates in the turning away of a baby to avoid having disagreeable food put into its mouth. In the same way, nodding its head meant that it wanted the food, and so it tipped its head up.

A child used to cry when it was lost, as that was its only way of being found. Now, however, although the necessity of using such a sign has disappeared, the child continues to cry when in distress of any kind.

In somewhat the same way, a cat crouches when angry or in danger, from the old necessity of crouching to keep out of sight of the wild enemy. His reverse action was arching his back, making himself as conspicuous as possible. A cat always does this now when pleased.

But the most striking example is that of man. The animal used to unsheathe his teeth to prepare for an attack upon the enemy. This motion is apparent today in the sneer of the man, though he no longer fights with his teeth.

This is the theory of Darwin, and has not yet been supplanted.

DONS MEET S. B. DIAMOND DEFEAT; GILBERT TAKES PLACENTAT BERKELY

INS SECOND Y JUMP AT ALIF. MEET

Southern California J. C. Track Stars Take U. C. In Big Track Meet

BULLETIN

There will be a track meet between Santa Ana and Riverside J. C. here Saturday afternoon. A good turnout of rooters will be appreciated by Coach Bill Cook and his track men.

Don Gilbert, Don track star, to be content with a second place in the broad jump while competing in a track meet held between a group of twenty-five track representatives of Southern California junior colleges and the University of California at Berkeley Saturday. Gilbert jumped 21 ft. 10 3/4 in. while took first with a leap of 22 ft. 6 in.

Jaycees Win Meet

The meet, won by the junior college aggregation, 67 to 64, was featured by a brilliant run of Bob Kie-Calfornia flash, who stepped off century in 58.8, equalling the world's record in this event.

In three events, the low hurdles, quarter mile and the half mile, Jaycee stars copped all the points, but the Bears did the same in the javelin and the discus. In the javelin throw, all of the throws were around 190 ft., shutting Jim Daneri of Santa Ana and a Shanbaum of Santa Monica, the college entries.

Relay, Deciding Factor

The deciding event of the meet, the one-mile relay, was won by the Bears in the fast time of 3m. 28.8s., but Benevise of Compton topped the mile to Bob Raftery of who paced it off in 4m. 33.4s. Several marks set in the Southern California J. C. conference meet which was held here April 2, were bettered at Berkeley. Courtney of

Don Racketeers In Decisive Win Over San Berdoo

Championship hopes were today blossoming with a new radiance following the Don racketeers decisive win over the San Bernardino aggregation on the Willard junior high school courts here last Saturday. Winning all but second singles and second doubles, Santa Ana had little trouble in outclassing the visitors to the tune of 15 to 8. Bob Kirk of the Dons bested Bauman in straight sets 6-1, 6-1. Bob Hafer defeated Swing 6-3, 6-3, and Verl Moyer easily won from Kapps 6-2, 6-2. Santa Ana's thus far undefeated first doubles team of Cecil Slaback and Harry Nissley took their match with little difficulty, 6-3, 6-3.

Considerable argument resulted because of the scoring method used, San Bernardino believing that points in the singles should run 4-3-2-1, and in the doubles 5-4, and Santa Ana maintaining that the scoring should be 5-4-3-2 in the singles and 5-4 in the doubles. The Santa Ana manager, Cardwell Oglesby had sometime before approached Tennis Rules Chairman of the Orange Empire League, Lodge of Fullerton concerning the scoring, and was instructed to use the latter mode. The two colleges, however, did not come to an agreement concerning the count. By both methods of scoring Santa Ana would have won, 11-7, or 15-8.

The Dons draw a bye this week, and will meet the powerful tennis squad from the University of Southern California Dental College this following Saturday on the local courts, Manager Harry Motley announced today.

Mermaids Are To Compete May 14

Swimming is to be the main event of the afternoon at the playday in Pasadena, May 14, and nine co-eds are training to win points for Santa Ana in the aquatic events.

The different forms of competition are to include a 25 and 50 yard dash; side stroke and crawl for form; 25 yard back stroke race; a novelty relay; four man relay; and diving.

Compton ran the 440 in 50.1s. to beat Carter of Citrus who set a new conference record here; the 120 high hurdles were topped by Parker of L. A. in 15s. flat; and Stevens of Glendale who took second in the conference meet, high jumped 6 ft. 2 in. to better the new record of 6 ft. 1 1/2 in. established by Linn of Long Beach on April 2.

Dual Meets Start Again

Coach Bill Cook's track men now swing back to their dual meets. Santa Ana has had only two so far this season, the one with San Bernardino on March 5 and the one with Citrus Tuesday. Those still on tap are as follows: April 16, Riverside at Santa Ana; April 23, Fullerton at Santa Ana. The Pomona meet was forfeited by them, and the Chaffey meet was postponed at the beginning of the season to an indefinite date. On April 30, the Southern California junior college conference meet is scheduled to be held between the Western division and the Orange Empire League champions, Compton and Santa Ana looming as probable contestants at present.

Hello, folks.

We introduce ourselves as your special news announcers on the Olympic Games, bringing to you for the next few months interesting sidelights on the "doings" as America prepares its athletic party for the world.

UNCLE SAM THE HOST

During the last days of July and the first fourteen days of August, the United States plays host to the World and the games of the Xth Olympiad.

To date the record number of 40 nations have announced their intention to participate. Southern California, the "Playground of America", and the scene of the events, is preparing a rip-roaring welcome.

IT'S NOT SO

"People think of the Olympic Games as a type of glorified track meet."

Bill Henry, famed sports writer and expert, for twenty years a leading correspondent on assignments to every part of the globe, now sports technical director of the Olympic Games, was telling us of his work.

"They are far more than that. Besides including an international contest in almost every field of sport with several score nations represented, they are in themselves a great gesture of international fellowship and a tradition rooted in antiquity."

"This," and the athletically built sports mentor in the tan sports suit emphasized his words, "will probably be the only time in the lives of persons now living that the games will be held in America."

OLYMPIA

These games had a deep symbolism in moss-covered antiquity.

It is a matter of historical fact that down in ancient Greece great battles were called off when the moon reached a certain position in the heavens

during the summer solstice. The homicide squads on both sides of the battlefield would then adjourn and tramp off to Olympia on the west coast of Greece to hold the games.

In truth, they were not games, but athletic rites of purification dedicated to Zeus, invisible ruler of heaven and earth.

The serious business over, and the victors crowned with the proper herb, the athletes would return to the horse-play on the battlefield.

DEATH AND REVIVAL

Although the Greeks had a word for him and more, the Roman Emperor Theodosius finished both Greeks and Games in the year 394 A.D.

And that was for nearly fifteen centuries until the year 1892.

In that year the athletically-minded Frenchman, Baron Pierre de Coubertin, then a youth of seventeen, proposed the revival of the games before the French Sports Union. His dream was realized at Athens four years later—the city which once beheld the glory that was Greece in the days of the Olympiads, now witnessing the first modern edition of the ancient games.

It seems fitting that the Olympic Games, in which the physical perfection of the youth of that ancient day inspired eternal works of art, should have been revived by a youth in this modern day when the games, with their intense competition, are an invaluable physical expression to men being drafted by the machine age.

(Editor's note—Continuing the running of Olympic News we present today the first of the Olympic Messenger series. These stories are sent out by the Inter-Collegiate Olympic Games News Service of which Leon Games News Service of which Leonard Horwin, the writer of this article, is the director. This column will be a regular feature on this page—Watch for it.)

Many Men Answer Cooks' Call For Spring Football

Spring football practice started out with a bang here last week when suits were issued to some 33 men by Coach Bill Cook. However, all of the men who signed up are not working out, as some of them are competing in other sports at the present, and will probably see little action until next fall.

The fundamentals of the game such as tackling, blocking, passing, kicking, as well as the learning of new plays and signal practice will occupy the 1932 edition of the Santa Ana football team for several weeks. Coach Cook will also be able to try out some of the new talent which will be available here next season, as several high school stars are working out with his squad.

In the near future, next week perhaps, a game between the Dons and a squad of ineligible men is to be arranged. Several former football stars around the campus are trying to get up a squad to offer Cook's men a little competition. Some of them are "Brick" Armstrong, Solon Beall, Mike Santa Cruz, Harry Clayton, Chuck Crumrine, Ervin Watkins, Wayne Bartholomew, Wayne Garlock and Larry Rossiter.

Indications point towards a strong football team this year. The list of men who received suits last week include much promising material, as well as several veterans from last year's squad. They are: Garth Olsen (guard), Bud Staples (center), Dean Benter (back) Lucius Conkey (tackle) Cliff Carroway (guard), Herb Hagthorpe (back), Fred Pinkston (guard), Fred "Porky" Bell (back), Gib Meisinger (end or guard), Joe Crafts (quarter), Lynn Chamberlain (quarter), Claude "Swede" Williams (half), Earl Homan (end), Kenneth Schenck (guard), Paul Bruce (center), Hideo Higashi (end or fullback), Hiles Norton (tackle), Jimmy Hall (half), Ray Nowotny (tackle), Carl Bower, Harold Spangler (end), Jack Fredricks (back), Chet Seigal (center), Bill Campbell (half), Horace Ritner, Harry Ogawa (back), and Frank Nagamatsu (back).

Replacing Homan in the pitcher's box in the sixth, "Hen" Thiery held the opposing team to a lone hit in the eighth but to no avail since "Ironman" Frikas did not loosen up for Cookman at anytime.

HORSEHIDERS DEFEATED BY S.B. INDIANS

Take Drubbing At Hands Of Pitcher Frikas, Homan Fails To Come Thru

After home-running their way to victory over Chaffey a week ago, Clyde Cook's Dons got one of the biggest upsets in the early part of their season last Saturday when the San Bernardino Indians waded thru them to take the game by a score of 13-1.

The upset which was hardly expected owing to the locals hard won victory over the Panthers, carried even a bigger blow when the Don four-star pitcher, "Biff" Homan played the leading role in "The Light That Failed" and had to be jerked in the sixth with the Indians cutting down on everything he sent their way.

On the opponents team, Frikas apparently took the game when he allowed but four hits and struck out 14 of those men who faced him. On the batting order catcher Kendrick made high point honors when he made four runs out of five times at bat.

Russell Sullivan, the man who won the seasons opening league game by socking a homer over the left fence, again came thru by making the lone score for the Dons when he singled and went two bases on third baseman Coleman's error and then came home on Verle Moyer's drive to center.

Replacing Homan in the pitcher's box in the sixth, "Hen" Thiery held the opposing team to a lone hit in the eighth but to no avail since "Ironman" Frikas did not loosen up for Cookman at anytime.

Swimming Team Work Held Up

After several attacks of the mumps the junior college team has been temporarily discontinued according to Coach Bill Cook. Six members of the team have been absent from several practices, and it looks as if the mainstays will be absent for a while longer.

Melvin Maxwell, Eldon Bragge, Pete Defabio, David Beall, and others have been absent for several weeks. It seems very ill fortunate that the swimming team should have to be disbanded, even temporarily as Coach Parker has been making splendid progress since a couple of white washes at the first of the season.

However, the high school swimming team, which practices in conjunction with the junior college team will continue with their practice, as they have another meet in the offing. The one fortunate angle is that Bert Winslow, one of the fastest swimmers on the team, has not been ill, and has been able to help Parker round the high school team into shape.

Baseball To Be Playday Feature

With neither sophomore nor freshmen girls showing a decided superiority over each other in recent practice baseball games, competition promises to be keen in a series of five contests to begin next Monday, April 18, and end May 11. Intervening dates are March 25, May 2, and May 4.

The victorious nine will represent Santa Ana at the playday, May 14, to be held in Pasadena. At the last practice the upper classmen won a 5-2 score victory, but the freshmen have high scores to their credit in two previous games.

The list of players is as follows: Evelyn Williams, Mary Jane Dodd, Eugenia Wayne Gire, Neva McDonald, Alma McDonald, Lucile Harper, Virginia Warner, May Hasenjaeger, Lorna Allen, Betty Walker, Audrey Teel, Beth Collar, Florence Cokeley, Janet Crawford, Francis Curl, Shirley Day, Elda Ehlers, Evelyn Green, Martha Hendricks, Rosy Kaplan, Bonnie Kiser, Edna Kohler, Imogene McCauley, Helen Mott, Elizabeth Riniker, Adwain Smith, Olive Spears, Hazel Spencer, Agnes Steward, Irene Whisler, and Patricia Ferris.

DOINGS OF THE DONAS

Playday at Pasadena is not far off. May 14 is the date anticipated by baseball and tennis players, archers, swimmers, and golfers. The affair is being thoroughly done this time and almost every event possible is scheduled. The Saints are entering them all except the rifle contests.

Ernestine Wakeham and Katherine Chapman are the only golfers we can boast of here, and they probably will play the 18 holes at Pasadena if Ernestine doesn't play tennis.

It is expected that six girls will compose the archery team. The modified Columbia Round is to be used. There will be 24 arrows shot at 30 yards, and as many at 40 yards. The girls who are preparing for this event are doing so on their own initiative. They practice on their own schedule.

Commercial Class To Hold Trip Soon

The date set for the annual commercial department field trip in which all of the commerce students will visit several different types of commercial business houses is April 28.

Roy Wheeler, chairman of the committee to make arrangements, states that according to tentative plans, they will visit a soap factory, a steel mill, a creamery Co, a paper mill, a Textile mill, a bakery, and a rubber tire Co.

The transportation will be furnished by busses as no private cars will be driven, and the commerce teachers will accompany the students on the trip.

The expenses for the trip will be made as light as possible, and including transportation costs they will probably not exceed one dollar per student.

According to Mr. Holmes, head of the commercial department, the commercial classes will perhaps taken another field trip and visit the different parts of the Los Angeles Harbor soon.

One of the mathematically inclined students of the junior college said today that when he first started taking solid geometry he thought it was "awfully simple" but now he thinks it "simply awful".

"A bachelor has nobody to share his troubles."

Helping Santa Ana Grow For 46 Years!

Santa Ana's educational advantages have always been the best possible to obtain. One of the first buildings erected back in the pioneer 70's and 80's was a school building. The First National Bank was founded in 1886 and we have seen and taken part in the development of educational facilities ever since. The Bank is the financial reservoir of the community through which the people's money has flowed for 46 years to aid in building commerce, homes, and training young folks to "carry on" for us in later years!

FIRST NATIONAL BANK
Of Santa Ana

College Professors Give Opinion Of Today's Life

Here's what two college professors think of the following: Amos and Andy: "The most remarkable piece of stupidity yet put on the air."

Movies: "Frightful".

Football: "That fair flower of collegiate culture, hump!"

College Graduate: "Not a man but an intellectual infant."

Democracy: "Rather a ridiculous thing among college students."

Voters: "Without the finer sensibilities of life."

National Taste: "Sunk to appalling depths."

Legislature: "Lacking in intelligence."

University clubs: "Those bright centers on the intellectual life where the alumni gather around the radio and hang on the words of the football announcer."

These criticisms were made by Gordon J. Lang, University of Chicago and Dr. Alexander Meikeljohn, director of the University of Wisconsin Experimental school.

—Coe College Cosmos

S. C. Tuitions Free To Better Students

Made possible by a fund which the board of trustees and the administration have built up for the purpose, 35 tuition scholarships for the academic year of 1932-33 are to be awarded by the University of Southern California to selected graduates, boys and girls, of accredited high schools and junior colleges.

Twenty-five scholarships covering tuition for the freshman year will be awarded to accredited high schools with an enrollment of 100 pupils or more, and ten scholarships covering tuition for the junior year will be awarded to accredited junior colleges. Not more than one scholarship will be assigned to any one school or college.

Eligibility is based upon scholastic record, principal's recommendation, and ability to meet fully the requirements for admission to the university either as to entrance requirements for high school graduates or as to requirements for admission to junior standing for junior college graduates. All applications with transcripts of records and principal's recommendation must be received directly from the principal by Dr. Frank C. Touton, vice-president of the University of Southern California.

Winners will be announced by May 1, and will enter the university in September.

ADMONITION

"Go to father", she said,
When I asked her to wed;
And she knew that I knew
That her father was dead.
And she knew that I knew
What a life he had lead,
And she knew that I knew
What she meant when she said,
"Go to father."

DOINGS OF OTHER COLLEGES RECORDED BY DON REPORTER

Whittier college recently received the following letter from the Consul of France:

"At the request of my government I have the honor to inform you that according to established legislation, the degrees of B. A., and B. Sc. granted by your institution enjoy the privilege of being the equivalent of the French degree of 'Baccalaureate de l'Enseignement Secondaire' and will be accepted as such in French universities."

This means that Whittier college has been deemed worthy to receive recognition among the universities and colleges of France.

In a recent address to faculty members Dr. M. E. Harrarty, dean of the University of Minnesota, asserted that college students forget from 43 to 47.8 per cent of the facts they learn within 8 months. He emphasized the importance of the instructor repeating the salient points of a lecture over and over in order that it might fix itself in the minds of the students.

Los Angeles junior college participates in 13 different kinds of sports each year. Of these sports the most outstanding are football, basketball, track, baseball, and ice hockey. The other events include cross-country, swimming, tennis, gymnastics, wrestling, fencing, water-polo, and golf. Approximately 373 men of the college participate in these sports. Football and track have the largest turnouts, with about 60 men for each.

Examinations for amateur radio licenses were taken by four Jaycee students from San Bernardino, at the Riverside armory recently. To pass these examinations it was necessary for them to be able to send and receive ten words per minute in code, have a thorough knowledge of radio theory, and the 1927 radio laws.

Sponsored by the A. W. S. of Los Angeles junior college, a fashion show was presented on April 7, for the women students of the institution. Gowns worn by 12 models were described by Grace Waterman, fashion expert of the May company.

The University of Maryland charges students three dollars for each class they cut.

Five dollars is being offered as a prize for a new pep song, at the Long Beach junior college. The pep song will be used during the athletic season.

A society to promote extra-curricular activities is being organized in Modesto junior college. It will be known as the Quarterdeck Society. The membership will be made up of twenty-one students prominent in various extra-curricular activities of the school.

The members of the boys' dormitory at Weatherford college held their annual Rodeo recently. They rode calves, and each member seemed quite interested in finding the smallest one to ride.

Six members of the Ventura J. C. orchestra played in the All-Southern California college and university orchestra in Santa Barbara. The orchestra composed of the best musicians in all universities, colleges, and junior colleges, was sponsored by the State Teachers college of California.

Fresno State College is having a contest for the best essay on who is the best performer in the motion picture success "Aroosmith". The award will be \$5.00 in cash, with no less than 150 words for the essay.

After covering 2,600 miles and presenting 22 concerts throughout California and Arizona, the glee clubs of Whittier college are back from their annual spring tours.

The women returned from an 11 day tour of California going to San Francisco via inland route and returning down the coast. They presented 16 concerts in high schools, clubs, and churches. They enjoyed a day in San Francisco visiting Chinatown, the Happy-Go-Lucky hour at KFRC, Golden Gate Park, and the theaters.

The men returned from a trip which took them as far as the Grand Canyon and Phoenix. The club enjoyed a trip down the famous Bright Angel trail to the bottom of the canyon, where they camped out for the night.

Over 115 girls started rehearsal this week on the May Festival of the Nations, to be given by the women of Whittier college on April 29, as one of the features of the spring festival.

Professor Ernest J. Opik, astronomer of Tartu University in Estonia, who is visiting at Harvard University, declared that there is abundant evidence tending to show the age of the universe has been considerably overestimated.

Its age, he indicated, may possibly be no more than 3,000,000 years, and its creation could have been instantaneous, rather than evolutionary.

The college girl is inclined to be "sloppy", it was declared by Dr. Robert Emmons Rogers, professor of English at the Massachusetts Institute of Technology, who two years ago set the country agog with his advice to college graduates to be "snobs".

Here are some of Dr. Rogers' statements in a talk given at Pittsburgh:

"The girl who is a college graduate seldom has to use sex appeal in the business world."

"The college girl is inclined to be sloppy—the more educated she is the sloppier she usually is."

"It is to the advantage of any girl, seeking a position or filling one, to be well groomed and attractive."

"As a general rule, the man and woman who are not college graduates are inclined to be more careful of their personal appearance."

"The old-fashioned employer resents sloppiness in the appearance of his employees; the modern employer is reconciled to it."

Mamlin University, the oldest college in Minnesota, no longer requires students to have a certain number of credits for graduation; instead, when they are able to pass a comprehensive examination, they receive their diploma.

A survey of Indiana high school seniors on the basis of their choices of careers has showed that those planning to be journalists register the highest ratio of intelligence. The intelligence rating of the students on this basis was in the following order:

Journalists, scientists, ministers, lawyers, farmers, and physicians.

Girls planning to be lawyers showed a higher rating than those boys with the same ambition. The lowest class among the girls was those who were planning to do clerical work.

The Sacramento junior college are planning for a Circus dance to be held this Friday night at the Masonic Temple.

All decorations for the dance center about a circus day motif. Entrance to the dance floor will be through a long hall sprinkled with sawdust and covered by a tent-like canopy.

One end of the room will be devoted to concessions where popcorn and pink lemonade will be sold. At the other end will appear a zoo in which will be a live mountain lion, a monkey, and a seven foot snake, as well as other imitation animals.

Prizes will be presented during the evening. They include a ten dollar fountain pen, a pair of white flannels, a five dollar compact, a five dollar hat for a boy, two one-pound boxes of candy, and two passes to the theatre.

Beard Contest Support Grows; Competition In Event Waxes Hot

Continued From Page One)
O. K. club committee in charge of the event. Prizes will be awarded as follows:

1. Best uncut beard.
2. Most unique beard.
3. Best mustache.
4. Best cut beard.
5. Poorest fuzz.
6. The largest beard.

With the large number of classifications and the diversity of the competition, it is expected that there will be an even greater attraction for students to enter the contest.

Three judges from Santa Ana barbers will be selected to name winners of the event which will close on Fiesta Day. George Griffith, chairman of Fiesta Day, made an appeal today for co-operation in staging the event. "The beard growing contest", the chairman said, "not only adds greatly to the spirit atmosphere of Fiesta Day but also makes it possible for the college to gain publicity throughout the Southland. The support of every Don who feels that he can raise anything of a tansorial growth is needed in order that the event will be assured success."

Paul von Hindenburg Selected President

President Paul von Hindenburg of Germany has been re-elected as president for another seven years term. In the recent election he failed by only a few thousand of getting a majority of all the votes cast. Lacking a majority he had to run again, but this time he was elected.

Hindenburg, chief of staff of the German armies during the World War, is 85 years old. He was destined to be a soldier from the day of his birth. His father was a Prussian soldier. His father's father had been a soldier. His nurse had been a canten woman in the Napoleonic wars and when Paul cried, she would shout "Silence in the Ranks"! At 11, Paul went to military school, at 18 he saw his first action. He was present in the Hall of Mirrors when Wilhelm I was proclaimed Emperor of Germany.

He retired from the army in 1911 at 64 years of age, confident war would never come again in his life time. The World War broke and Hindenburg emerged as Germany's national hero especially since he refused to flee the country after Germany's defeat as did the Kaiser and Ludendorff.

Theatre News

In keeping with their policy of the finest pictures and stage attractions at popular prices, Claud Speath, manager of the Orange Theatre announces a week of outstanding attractions for the coming week.

Heading this list and starting on April 13, George Arliss will be shown in his latest play, "The Man Who Played God."

On Saturday, "Men of Chance" with Ricardo Cortez is the screen attraction and on the stage another version of the Orange Theatre Saturday Stage Frolic, which is making such a hit with the theatre going people of Orange county, will be presented.

Sunday, Pola Negri in "A Woman Commands", together with the usual high class vaudeville, rounds out a week of unusual attractions.

Bigger Fiesta Day Is Plan At Jaysee

Wheeler, publicity chairman. Exhibits of the student activities, a banquet on the front lawn, a dance in the gymnasium, and the climax in the evening of the annual college play, which will be "Ladies of the Jury" this year.

It is requested that every junior college student and faculty member dress in Spanish dress, and in the afternoon hundreds of Orange county high school graduates will be guests of the college.

Geology Classes Return Saturday From Field Trip

Santa Ana junior college geology students returned Saturday night from a one-day field trip to the Lake Elsinore region. The chief object of the field trip was to study faults and earth formation.

Leaving the science building at 7:30 a. m. Saturday morning, the group of 21 students under the direction of H. A. Scott, started on the trip and traveled up Santa Ana canyon making numerous stops to study land formations, caused by running water, folding, and faulting. It was at one of these stops that Mr. Scott killed a rattlesnake which measured four and one-half feet long and had eight rattles. One of the boys skinned the snake, the skin being worth \$3.00.

After travelling through Corona, the students stopped at the Abbeville Clay mine and studied the sedimentary deposits as well as the coal veins.

A study of Lake Elsinore was held, for the most part that of faults, earth movements which divide valleys and mountain ranges.

Several turtle back concretions were found in Blackstar canyon, but few other specimens were brought home.

The geologists came home the skyline drive through Blackstar canyon to the Santiago Dam, making several more stops on the way. Each student took a printed list of questions to answer about the trip, a note book, and a means for collecting specimens.

The arena is to be placed at the east of the print shop this year, and the art department is making the posters to advertise the occasion.
